

# Aesthetic Check List

The following are essential tools we will need to complete an aesthetic case, and should be obtained during the prep appointment and/or temp check appointment.

1. All 6 photos requested on our **Aesthetic Photo Guide**
2. Model of the pre-op
3. Impressions of the temporaries (Gingival capture is as important as capturing the margins)
4. Bite registration
5. Stick-bite (horizontal plane, parallel to horizon line between pupils)
6. Detailed lab prescription, thoroughly filled out
